

IMTS Action Items

August 8 Conference Call

Completed Action items

1. We will use the Digital Twin logo (#2) with neutral colors for the perimeter.
2. DMG and Hyundai will demonstrate at IMTS
3. DMG and Makino will demonstrate at JIMTOF
4. Sid to obtain large eps for MTConnect logo, Rich to obtain same for OMAC, Martin to obtain same for STEP, Larry to obtain same for QIF.
5. Combine stages 1 and 2 to make a 3-axis demonstration
6. Combine stages 3 and 4 to make a 5-axis demonstration

Open Action items

7. Hyundai has selected a new vise and will test next week.
8. Guest exhibitor badges for Boeing and STEP Tools teams.
9. DMG to complete the Digital Twin logo (#2) with neutral colors
10. Renishaw to install probing cycles on the Hyundai XF6300 for IMTS
11. Extend AP238.org or OMAC.org or 23247.org to include information on a new “vendor neutral” Digital Twin Factory.
12. Add 5-axis probing to the Siemens codes generated by STEP Tools.
13. Test the latest DMG machining programs at Renton.
14. Test the latest programs at Pfronten (but without the fixture).
15. There is concern about the availability of spares for Tool 3 which has a 20mm diameter and a 2.5mm radius.
16. Create short probe programming to enable an alternate, fast stage 4 validation (test on August 9)
17. Create probing program for the stage 2 to 3 transition (two holes plus upper rear corner) (TBD with QIF)

New Action items

18. Review new logo.
19. DMG and STEP to start on-site testing on September 5th
20. Hyundai and STEP to determine time to start on site testing.
21. DMG to determine advertised time for its demo on each day
22. Hyundai to determine advertised time for its demo on each day
